Initiative Councils Are Now Available to ULI Members

The ULI Orange County/Inland Empire has created Initiative Councils that focus on ULI's priority initiatives. The Initiative Councils provide opportunities for leadership and volunteer involvement in the ULI at the local level, by promoting excellence in programming and fostering a culture of openness and sharing of issues critical to the land use planning and real estate development industry.

Membership on the Initiative Councils is limited to 30 members each and members must commit to attending quarterly meetings. The objective is to create Initiative Councils of industry professionals, who get to know each other thru involvement in ULI, by meeting regularly, and sharing best practices and lessons learned. The Initiative Councils have access to research published by the ULI and its members. Meetings may include case studies, round table discussions, and offsite private tours. Discussions at Initiative Council meetings must allow for diverse consideration of issues that effect change. Openness is key! Information is shared confidentially among members and should not be shared outside of the Initiative Councils. Initiative Councils are responsible for upholding ULI's Reverence/Code of Ethics.

Please select no more than three potential Initiative Councils you are willing to participate in, in order of your preference. Participation is limited to one Initiative Council during a term of service. Multiple members from the same company, serving on the same Initiative Council, is discouraged. See the second page for further description of the Initiative Councils.
