CITY OF ANAHEIM

Our ULI Legacy series recognizes the enduring participation and commitment that many of our member organizations give to the Orange County/Inland District Council.

These organizations encourage their best and brightest to join ULI as Full members, Associates and Young Leaders. We appreciate their active roles on our Initiative Councils, TAPs, and programs.

Join ULI's community of professionals today.

"ULI membership is an invaluable resource that allows public sector professionals to stay current with emerging trends, identify best practices and develop a better understanding of the factors that influence real estate investment and development. ULI is also a conduit through which public sector planners and project managers can exchange ideas with the private development community in support of smart growth principles that form resilient communities."

Jonathan Borrego
Planning Services Manager
